AVERTISSEMENT

Les circonstances nous ayant contraint de développer, au delà de nos prévisions, notre étude sur le Rôle et la Place de l'Accent tonique latin dans le Rythme grégorien, nous sommes obligés de diviser en deux volumes les matières qui, dans notre pensée, ne devaient en former qu'un seul.

Le VIII volume comprend donc tout le texte c'est-à-dire :

1º la Note sur l'Antiphonarium tonale de Montpellier;

2° notre travail sur le Rôle et la Place de l'Accent tonique latin dans le Rythme grégorien, avec les tables qui s'y rapportent.

Le présent volume, le VIIIe, renferme les phototypies du Codex de Montpellier, avec deux tables qui en faciliteront l'étude. Le manuscrit ainsi publié à part n'en sera que plus aisé à consulter.

La Préface de ce même Antiphonaire comprenant :
l'historique de la découverte;
la description de l'Antiphonaire;
enfin, son contenu,
se trouvent en tête du septième volume.

TABLES

AVERTISSEMENT. — Les chiffres marqués d'un astérisque (*) renvoient à des pages où les pièces musicales sont indiquées sculement par les premiers mots.

Ce qui est entre crochets ne se trouve pas dans le manuscrit.
